

Floraline Floralwall FD4 SpaceSaver

We've reduced the footprint of our FD model, while retaining all the merchandising options as before. Constructed with display steps in the lower section and adjustable shelves on the back wall, you'll have plenty of options to show off your product. This is a refrigerated floral fixture at a classic height with full lighting. Our new style also positions the flowers closer to the case front to drive that impulse purchase.

Features:

- Soft Air Flow Environment - evenly distributed floral envelop, sealed with our air curtain to simulate a closed door case.
- Consistent 36° F. air temperature.
- High Humidity - 65% to 80%.
- 15° forward lean, locking vase collars - ensures your bouquets are displayed properly.
- Polyurethane foamed in place insulation.
- Your choice of laminate and trim packages to match any color palette.

Capacity: 8 buckets plus shelving.
